Source: The Foundation Center, 2009. Dollar figures in thousands; due to rounding, figures may not add up. Based on all grants of \$10,000 or more awarded by a national sample of 1,339 larger U.S. foundations (including 800 of the 1,000 largest ranked by total giving). For community foundations, only discretionary grants are included. Grants to individuals are not included in the file. Grants may support multiple recipient types, e.g., educational research organizations, and would therefore be counted more than once.

<sup>1</sup>"Research Institutes" does not include medical research organizations.
