Source: The Foundation Center, 2007. Based on all grants of \$10,000 or more awarded by a national sample of 1,154 larger U.S. foundations (including 800 of the 1,000 largest ranked by total giving). For community foundations, only discretionary grants are included. Grants to individuals are not included in the file. Figures represent only grants awarded to groups that could be identified as serving specific populations or grants whose descriptions specified a benefit for a specific population. These figures do not reflect all giving benefiting these groups. Grants may benefit multiple population groups, e.g., a grant for homeless children, and therefore may be counted in more than one population group table. In addition, while the full value of the grant is counted, in practice only a portion of some grants benefit the specified population group(s).
