| 49. Community Technology Foundation of California | CA | 1,503,584 | 3 |
| 50. Massachusetts Institute of Technology | MA | 1,500,000 | 4 |
| Total | | \$165,962,285 | 373 |

Source: The Foundation Center, 2008. Based on all grants of \$10,000 or more awarded by a national sample of 1,263 larger U.S. foundations. Figures represent only grants awarded to groups that could be identified as serving specific populations or grants whose descriptions specified a benefit for a specific population. These figures do not reflect all giving benefiting these groups. In addition, grants may benefit multiple population groups, e.g., a grant for homeless children, and would therefore be counted more than once. For community foundations, only discretionary grants are included. Grants to individuals are not included in the file.
