Total		\$ 125,104,628	539

Source: The Foundation Center, 2012. Based on all grants of \$10,000 or more awarded by a national sample of 1,330 larger U.S. foundations. Figures represent only grants awarded to groups that could be identified as servicing specific populations or grants whose descriptions specified a benefit for a specific population. These figures do not reflect all giving benefiting these groups. In addition, grants may benefit multiple population groups, e.g., a grant for homeless children, and would therefore be counted more than once. For community foundations, only discretionary grants are included. Grants to individuals are not included in the file.
